SUMMARY

Proactive Java Full Stack Developer skilled in designing and delivering responsive user interfaces and robust server-side applications. Proficient in Java, Spring Boot, and Microservices architecture, adept at building scalable solutions to meet business needs. Strong problem-solving abilities with a collaborative approach to teamwork, complemented by excellent communication skills. Committed to staying updated with emerging technologies and industry trends to drive continuous improvement. Demonstrated track record of delivering high-quality solutions that exceed expectations.

TECHNICAL SKILLS

- Java, Python, Ruby, JavaScript, TypeScript
 - HTML, CSS, Bootstrap
 - Angular Material, Vuetify
 - Node.js, Next.js
 - Spring Boot, Ruby on Rails
- Angular.js, Vue.js
 - MySQL, Oracle SQL, MongoDB
 - Git, GitHub
 - Jest (Test Framework)
 - Kafka, Sidekiq, GraphQL, REST API

EXPERIENCE

Software Engineer I <i>Caratlane A TATA Product</i>	April 2023 – Present <i>Chennai, India</i>
<ul style="list-style-type: none">• Developed scalable and high-performing microservices using Java Spring Boot and Nest.js, ensuring efficient system architecture.• Designed and implemented RESTful APIs and GraphQL to enable seamless communication between microservices.• Built Kafka-based event-driven architectures, optimizing data processing and improving system reliability.• Developed responsive and interactive user interfaces using Angular and Vue.js, improving user experience and engagement.• Implemented CI/CD pipelines using GitHub Actions and AWS DevOps, streamlining deployment processes.• Applied observability and monitoring best practices using Datadog, proactively identifying system bottlenecks and optimizing performance.• Collaborated with cross-functional teams for sprint planning, task prioritization, and Agile development, ensuring on-time feature delivery.• Conducted root cause analysis to identify system-level problems and implemented action plans to enhance resiliency, security, and reliability.• Worked with MySQL, PostgreSQL and Redis for efficient data management and query optimization, also ensuring data integrity and efficient indexing to support large-scale applications.• Developed responsive and interactive user interfaces using Angular and Vue.js.	
Software Engineer Intern <i>Caratlane A TATA Product</i>	Nov 2022 – Mar 2023 <i>Remote</i>
<ul style="list-style-type: none">• Refactored legacy code in the ITR module, reducing live issues by 50% and improving system stability.• Optimized SQL queries for table data retrieval, cutting response time by 40% for better performance.	
Intern <i>WIPRO</i>	Jan 2022 – Aug 2023 <i>Remote</i>
<ul style="list-style-type: none">• Learned Java Full Stack and accomplished a capstone project using the knowledge.• Applied knowledge to help other students understand course material and improve performance.• Met internship goals and achieved a good impression with diligent completion of assignments.	

EDUCATION

CMR COLLEGE OF ENGINEERING AND TECHNOLOGY <i>Bachelor of Technology (GPA: 9.37)</i>	Hyderabad, India <i>July 2018 – June 2022</i>
SRI GAYATRI JUNIOR COLLEGE <i>Intermediate (12th) (GPA: 9.29)</i>	Hyderabad, India <i>June 2016 - March 2018</i>
THE INDO ENGLISH HIGH SCHOOL <i>Secondary Education SSC (GPA: 8.3)</i>	Hyderabad, India <i>March 2015 – April 2016</i>

CERTIFICATES

- Java Full Stack, Great Learning
- Introduction to Self-Driving Cars, Online Coursera
- Python for Everybody - Python Data Structures, Online Coursera

Achievements

- Secured a couple of Spot Awards in CaratLane as a part of good feature development and hackathon participation.
- Achieved first position in the Autodesk design competition during the Azura 2020 event conducted by the college.
- Participated in the Guinness World Record event in building face recognition using Python, conducted by GUVI.
